

## DPE Device Specifications

Device	Price (USD) + shipping	EMF Protection? All types - 5G microwave, solar and other sources	Protection Zone Radius (km)	Protection Zone Height (km)	Agriculture Function?	Agriculture Zone Radius (km)	Radiation Protection	Wind Turbine Noise Amelioration	Stench reduction from intense animal husbandry	Length (m)	Device diameter (cm)	Weight (kg)	Installation (how much projecting above the ground?) (cm)	Warranty (years)	Minimum expected life (years)
DPE100	\$3,749	Yes	2	200	Very Slight	0.01	Yes	No	Yes	1.2	20	5	15	5	10
DPE Shield	\$43,999	Yes	100	250	Very Slight	0.05	Yes	No	Yes	1.5	35	10	15	5	10
DPE Agriculture	\$5,999	Yes	3	200	Yes	1	Yes	Yes	Yes	1.5	25	6	15	5	10
DPE Shield Agriculture	\$16,990	Yes	15	200	Yes	5	Yes	Yes	Yes	2	25	10	100	5	10

### What is the impact of mountains?

Mountains will reduce the range a little, though remember these have a vertical zone that is at least 200 km high.

For certainty, assume the radius of effectiveness is reduced by 50%. So, for the DPE100, assume the protection zone is only 1km in radius when using around mountains. Some overlap will do no harm.

### What forms of EMF are protected from?

All sources - manmade or natural.
